THE FIRST CONGRESS

The First Congress of LIVER TRANSPLANTATION

Dear Colleagues

One of landmarks in the medical field in the Arab World is the progress in liver transplantation. Saudi Arabia and Egypt are the leaders in this field; Jordan and Lebanon had, recently, joined the club.

We believe that it is time to gather all these teams to exchange ideas and experiences. The 1st PanArab congress of Liver Transplantation will explore the current status of liver transplantation in the Arab world, future prospects as well as ways to integrate these efforts within the international liver transplant practice.

The meeting will cover all aspects of cadaveric and Living Donor Liver Transplantation for both adults and pediatrics. All areas shall be covered including; Surgical Techniques, Transplant Hepatology, Anesthesiology, Intensive Care Management, Radiology, Histopathology, Pharmacology, as well as Socio-economic issues. You are cordially invited to actively participate in The 1st PanArab congress of Liver Transplantation which is an unprecedented event in our area.

Deadline to submit abstracts: February 15, 2006
